- AIDSCON 2013 was attended by 8 NSS volunteers and RRC coordinators Dr. Savneet and Mrs. Jasneet Malhi from 29-30.11. 2013 organized by State Aids Control Society, Chandigarh at Govt. Medical College and Hospital, Sector-32, Chandigarh
- Proposals for starting of MA in Sociology at the Post Graduate level and additional unit of the B Com at the Under Graduate level were prepared. The college was awarded permission by the Panjab University for starting the same.
- The IQAC also reviewed the success of the Functional English at the elective level in BA, introduced in 2012-13. It was decided to motivate students to take up this course along with Elective English, in order to pursue English Hons. for better career prospects.
- Internet facility available (BSNL broadband BBG Combo 6300/4mbps, multiuser) A. Cs with star rating installed and CFL bulbs used

The major grievances of the students were.

1. Restriction on use of mobile phones.
2. Cleanliness of rest rooms
3. Hostel mess

4. White uniform on Monday

To overcome these problems, the rest room facility was improved, students were allowed to use mobile phones in specified areas, college hostel was renovated and a new mess contractor was hired to improve the quality of food and the compulsory white uniform has been done away with.

- Use of audio-visual aids were integrated with conventional black board
- Tree Plantation Drive was carried out in the college premises with the aim to make the environment clean and green in the session 2013-14. Around 30 saplings were planted and around 100 NSS volunteers participated in the slogan writing and poster making competition which was in the theme “Save Trees”.
- A rain water harvesting reservoir was constructed on the premises to raise the sub soil water level. Supply of used and treated water from the municipality has been secured for maintenance of lawns and plants.
- Low energy florescent bulbs, the compact fluorescent lamps(CFLs) are used as this use one-fifth the energy of conventional tungsten bulbs while giving the same output, reducing CO2 emissions, and lasting 9,000 + hours longer than incandescent bulbs. There is reduced energy consumption and lower emission of heat, reducing cooling requirements.
- Computer labs were upgraded with new higher configuration computers corresponding to course requirements and the used machines were installed in the library.
