Choices of Courses

Undergraduate students will make course selections from the various lists approved by the College. The choices will fall into categories as outlined below:

Major Course: This is the primary subject area a student wishes to delve into during their undergraduate course. It is the area of study that the student is most passionate about and may wish to pursue as a career. Students may be permitted to change their major within the broad discipline at the end of the second semester, providing them with ample time to explore interdisciplinary courses during their first year.

Minor Course: This is a secondary area of study that complements the student's chosen Major. Students who complete a sufficient number of courses in a discipline or an interdisciplinary area of study other than their chosen Major will qualify for a Minor in that discipline or interdisciplinary area. A student may declare their choice of Minor and vocational stream at the end of the second semester.

Ability Enhancement Course (AEC): These are Modern Indian Language (MIL) & English language courses focused on enhancing language and communication skills. The courses aim to enable students to acquire and demonstrate core linguistic skills, including critical reading and expository and academic writing skills. The courses also emphasize the development and enhancement of skills such as communication, and the ability to participate in/conduct discussion and debate.

Skill Enhancement Courses

Multi-Disciplinary Course

According to the National Education Policy (NEP) 2020, multidisciplinary courses are designed to provide students with a broad-based education that combines multiple disciplines or subjects. These courses aim to foster a holistic understanding of complex issues, promote interdisciplinary thinking, and develop versatile skills. MDCs encourage an interdisciplinary approach, holistic learning, development of versatile skills, foster creativity and innovation and enhance employability.
